## WHAT'S SPECIAL ABOUT OUR OASIS IN THE DESERT

When you're evaluating where to plan and host your business event, the venue and destination must tick very specific boxes relative to your requirements.

Often the decision is industry based, drawing on regional commercial and government activities.

Mildura is uniquely positioned as a destination for a range of specialised industries such as agriculture and horticulture, wine and beverages, manufacturing, solar energy systems and mining.

Pivotal to the region are government services, education and a vibrant retail sector.
